ADVICE AND MEDICAL DECLARATION FOR SNORKELLERS

I have been advised that snorkelling can be a strenuous physical activity even in calm water and that older people are at an increased risk of death and injury due to a higher incidence of medical conditions made worse by physical exertion, such as heart disease and stroke.

I declare that I have been advised that there is an increased health and safety risk to me if I am suffering from:

- 1. Any medical condition that may be made worse by physical exertion, eg heart disease, asthma and some lung conditions; or
- 2. Any medical condition that can result in loss of consciousness, eg some forms of epilepsy and some diabetic conditions; or
- 3. Asthma that can be brought on by physical exertion, stress, cold water or salt water mist.

I have been advised to tell the Dive/Snorkelling Supervisor if I have any concerns about a medical condition.

Note It is recommended that people who can’t swim comfortably in water too deep to stand up in or have a medical condition and older people intending to snorkel should:

- A. Snorkel in an area which allows the lookout or snorkelling supervisor to offer closer supervision.**
- B. Wear a flotation device that will support the wearer in a relaxed state.**
- C. Snorkel in buddy pairs.**

PART 4 – ACKNOWLEDGEMENT

- 1. I acknowledge that I have read and understood this form and my answers are true and correct.
- 2. I acknowledge that if I have answered ‘Yes’ to a medical condition, Pro-Dive reserves the right in its absolute unfettered discretion, to refuse to allow me to participate in the Activities.
- 3. I understand that concealment of any medical or physical condition might put my life or health or the life or health of others at risk.
- 4. I have been advised that the Activities may involve strenuous physical activity even in calm water and that older people are at an increased risk of death and injury due to a higher incidence of medical conditions made worse by physical exertion, such as heart disease and stroke.
