TAKE A JOURNEY THROUGH ANCIENT RAINFOREST

Kuranda Scenic Railway is an iconic rail journey that meanders its way through the World Heritage-listed rainforest of the Barron Gorge National Park, to the quaint mountain village of Kuranda.

Enjoy breathtaking scenery, towering waterfalls and deep ravines as the train winds its way through 15 hand-made tunnels and over 55 bridges. Hear about the incredible history, the flora and fauna, and points of interest with audio commentary along the way.

This Heritage-listed railway line originally opened in 1891 and is an engineering feat that has stood the test of time.

Up to 1500 men at a time armed only with hand picks, shovels and dynamite carved through mountainous and unforgiving landscape to construct the 33 kilometres of track.

The historic carriages of Kuranda Scenic Railway are hauled by dedicated 1720 class locomotives adorned in Buda-dji colours. Kuranda Scenic Railway can be joined at Cairns Railway Station or Freshwater Railway Station for morning departures and from Kuranda Railway Station for afternoon departures.

Combine your Kuranda Scenic Railway experience with one of our day tour packages. Choose from Heritage Class or Gold Class travel to discover this famous rail journey.

TIMETABLE

The leisurely journey takes approximately two hours and includes a 10-minute stop at the Barron Falls Station for a bird's eye view of the spectacular Barron Falls. The Kuranda Scenic Railway operates daily all year, except Christmas Day.

DISCOVER THE LIVING COLOUR AND NATURAL BEAUTY OF THIS ANCIENT
WORLD HERITAGE-LISTED RAINFOREST THAT IS MILLIONS OF YEARS OLD.

DISCOVER AN INCREDIBLE HISTORY

The setting was the prolonged North Queensland wet season of 1882. Desperate tin miners on the Wild River near Herberton were unable to obtain supplies and were on the verge of famine. The boggy road leading inland from Port Douglas was proving impossible. As a result, the settlers at Herberton raised loud and angry voices and began agitation for a railway to the coast. Constructed between 1886 and 1891, the railway line is still considered today as an engineering feat of tremendous magnitude. This railway line stands as a monument to the pioneers of Tropical North Queensland who lost their lives while working on the railway.
